

EcoHoard

COATED OSB SITE HOARDING

Recyclable eco-friendly hoarding panels that can directly take printed graphics

100% recyclable

FSC CE Certified OSB

Can be finished in any colour

Direct-to-panel printing

High resolution digital graphics

EcoHoard is a pre-finished OSB-3 grade hoarding panel. A versatile and cost-effective material with an A+ rating in the BRE green guide, the highest possible rating, making it the most environmentally friendly engineered timber building panel currently available to market.

Commonly used for site hoarding as an inexpensive and sustainable alternative to plywood or steel. EcoHoard is extremely strong, secure and weather resistant. Complying with all the structural and CDM regulations required for hoarding panels.

EcoHoard is 100% recyclable using eco-friendly, solvent free UV material. At our facility, specialised product is cured on to sheets of OSB giving a smooth slightly textured finish that can be directly printed on to. EcoHoard is a low impact solution significantly minimising the waste materials normally associated with printed hoarding.

No need for extra composite or plastic panels

Sustainable OSB board

Solvent free UV cured textured coating

Zero added formaldehyde

Environmental and sustainability concerns are now front and centre for many of our clients, with government legislation set to come into effect as early as 2025. **EcoHoard** uses existing materials to embrace innovative new technology, by diversifying our approach to outdated processes, allowing us to offer clients the highest quality product with the lowest environmental impact.

Upgrade your hoarding even further with **EcoHoardPlus+**. Our specialised primer can be applied to both faces for premium locations and high-profile presentations. Specifically developed for versatility **EcoHoardPlus+** can be used for a number of applications. From temporary construction site hoarding through to a range of security installations. Our system can be finished in a range of colours and with direct-to-panel printing **EcoHoardPlus+** is an ideal way to promote your corporate identity.

“We endeavour to continue to adapt our coatings and products allowing us to maintain a consistent stance on sustainability whilst creating high quality, environmentally friendly products that add value throughout the supply chain”
